FOR OMAHA FAIR
E. C. Macfarlane Notes That an Opportunity is Offered.

LACK OF ADVERTISING MATTER
No Literature on Hand — "Down Town" People Will Do Their Share.

E. C. Macfarlane, a gentleman whose judgment in the premises is of the first worth, sees in the approaching Omaha Exposition a great chance for effective advertisement of the Islands. Mr. Macfarlane has consulted with the Pacific Mail, Oceanic, Wilder and Inter-Island steamer companies and the Oahu Railway Company, as well as with a number of prominent firms and individuals and finds ready endorsement of his plans. There is also approval from members of the Cabinet and a number of the Legislators.

The supply of advertising matter is exhausted. The Foreign Office handbook edition is nearly gone, and besides the work needs revision. "Conditions have changed" since it was published. There is on hand absolutely nothing of any value for such an opportunity as is presented. Mr. Macfarlane reasons that thousands of people who intended going abroad as usual this year will not care to cross the Atlantic, but will be attracted by the big show at Omaha. Many of these people will come on to the Pacific coast and numbers of them will journey to the Islands if the attractions of the trip are properly brought to their notice. The Hawaiian Government exhibit at Omaha will be in charge of a newspaper man and as Mr. Macfarlane believes, one who will give effective distribution to such literature as may be provided. Mr. Macfarlane is quite familiar with the direct and indirect profit to the various elements of the community in the tourist travel and is in constant communication with the Cook & Son and Raymond & Whitcomb people, the world's excursion promoters. These firms are friendly to the Islands, want to bring people here, desire to advertise the country and have done much, but now write that they are handicapped for want of advertising matter. Raymond and Cook and hundreds of individuals send by every mail letters indicating the damaging lack of printing. They suggest leaflets and booklets well illustrated.

Mr. Macfarlane says the Volcano House Company and the Hawaiian Hotel corporation will do their share and that from conversations he has had with transportation factors and others interested, he is confident that "down town people" will subscribe one-half the amount required if the Government will appropriate the other half. The estimate of total expense is \$3,000, which all who know anything of the business will agree is quite moderate.

While primarily there will be exploited the tourist attractions of the Islands, due attention will be given the business and industrial features, with the view of attracting capitalists and settlers. It is proposed to have a handbook that will depict the educational advantages of the country. For this use, Minister Cooper will have prepared a resume of the report of the Bureau of Education. Another feature to be brought to the attention of the visitors at Omaha will be the means of getting to the Islands. There are in the United States thousands of people away from the seaboard who think of visiting the Islands, but who have no idea whatever as to routes of travel, time, expense, etc. The new book would give all these points.

Those who have in times past interested themselves in getting people to the Islands regret very much that the Cyclorama of Kilanea is not to be shown at Omaha. A site exceptionally favorable was secured, but the men who were going into the enterprise let the concession on the space slip away and finally abandoned altogether the lease of the Cyclorama.

Advertising matter placed at Omaha will reach Americans almost exclusively and will appeal strongly to the thousands of people who have been reading of the Islands almost daily for five years, but who have had very little specific information. It is desired to prepare this literature at once and to have it in charge for distribution of say the transportation and Volcano House Company people, who already are acquainted with the channels of dissemination and who will have an interest in seeing that the best work is done.

Both J. J. Williams and the Davey Photograph Company are taking a keen interest in the advertising proposal and will furnish pictures.

From Mrs. Wilcox.
The High Chiefess, Mrs. Theresa Owana-Wilcox will give a grand luau at Moanalua when the five whistles blow, to welcome the boys in blue. She also offers the use of her beautiful residence on Punchbowl slope known as "Keona Villa" to the brave boys, the wearers of the red, white and blue.

BRITAIN'S QUEEN
Observance Here of 79th Birthday of H. B. M.

At the Legation—Serenade and Reception—Ball in the Evening—Will Be a Society Function.

The arrangements for the grand society ball at Independence Park this evening in honor of the 79th anniversary of Queen Victoria's birthday, and in aid of the funds of that deserving institution the British Benevolent Society are now complete, and unless the arrival of the transports with troops should interfere, the dance promises to be one of the most successful social events of the season. Even if the transports arrive there will be no postponement, inasmuch as probably nothing can be done to entertain the martial visitors after dark.

The distinguished guests who have accepted invitations to be present, including those excellent dancers the officers of the U. S. S. Bennington, will make quite a society gathering in themselves, while it is estimated that over 300 tickets have already been sold.

In order to accommodate those who have not yet purchased tickets, in anticipation of the arrival of the transports, they may be obtained at the door from members of the reception committee or the secretary. This committee consists of W. L. Stanley, chairman, Dr. H. V. Murray, T. B. Starkey, Rev. V. H. Kitcher, Rev. Alexander Mackintosh and the secretary.

John S. Walker, is chairman of the floor committee which is composed of A. St. M. Mackintosh, Sir Robert Heron, E. B. Thomas, A. Garvin and W. Black.

Robert Catton holds the responsible position of chairman of the refreshment committee and he is assisted by such able and experienced hands as W. H. Pain, Dr. J. Weddick, W. W. Wright, W. Lishman and W. C. Sproull.

To judge from present aspects the mood of praise will be awarded to George L. Dail and the decoration committee comprised of J. Lucas, J. Lightfoot, F. Davey, F. Harrison and W. White. They have some charming surprises in store, and the hall will be a beautiful bower of blossoms, bunting, evergreens and artificial light. Every effort will be made to keep the spacious hall cool and airy, and the comfort and convenience of the ladies will be especially attended to.

The commander of the U. S. S. Bennington has very courteously placed a number of flags at the service of this committee.

IF NOT, WHY NOT?
This Time a Cabinet Member Questions the House.

REMARKS BY MR. W. O. SMITH
In Re Board of Health Appropriation—Causes a Halt in Retrenchment.

SENATE.
Eighty-third Day, May 23.
On the third reading of the bill licensing the manufacture of light wine from grapes of Hawaiian growth there was no discussion and the bill passed.

Consideration of the opium bill was postponed to Wednesday.
Senator Rice reported back the Rapid Transit bill printed.
At 10:15 o'clock the Senate adjourned.

HOUSE.
A communication from Speaker Kalanikou asked for a leave of absence of one week on account of illness. This was granted. Vice-Speaker Kaai took the chair.

Rep. Pogue introduced a resolution to the effect that after May 23d, the House hold evening sessions and that the appropriation bill be made the special order of business for such evenings. Rep. Achi introduced an amendment to the effect that the sessions begin at 9 a. m. This carried.

The committee to which had been referred the bill on helms reported: "In order that these relics may be preserved, we would recommend that the bill pass with slight amendments." Report laid on the table to be considered with the bill.

Upon consideration of the appropriation bill, Rep. Kaeo moved for a reconsideration of the item "Salary of Minister of Foreign Affairs." This was objected to and, upon being put to vote, was lost.

Upon taking up items under the head of "Board of Health," Attorney-General Smith asked if the committees had conferred with the heads of various departments when items under their departments were being considered by them. He had not found this so in his case. To treat heads of departments in such a manner was, to say the least, discourteous. He would not treat his own cook in such a manner.

Rep. Gear spoke for the Finance Committee, saying that the amount asked for in the appropriation bill was more than actually required by the pay roll which had been received from the secretary of the Board of Health. There were but few changes in the various items and these were made with due consideration and with a full knowledge of the facts pertaining thereto.

Items under the Board of Health were postponed until the committee should have time to confer with the President of the Board of Health, this upon motion of Rep. Richards.

The item "Pay of Chief Forester" was referred to a special committee composed of the following: Reps. Isenberg, Pogue and Loebenstein.

Under suspension of rules the petition relating to electric railway in Hilo was ordered given into the hands of Rep. Richards.

Rep. Richards then moved that this be referred to the special committee of the Senate now considering the new bill relating to railways on Hawaii. Carried.

The items "Pay of Forester" and "Pay of Laborers" were referred to the same special committee to whom "Pay of Chief Forester" was referred.

anniversary of the birth of Queen Victoria.

The resolution was unanimously adopted.
Reps Isenberg reported for the Military Committee on the resolution providing for an appropriation of \$150 for the purpose of erecting two tombstones to the memory of the men who were killed at Kalalau on July 4th and 5th, 1893, while doing their duty towards the Government as follows:

"Your committee, after carefully looking into the matter, would recommend that the amount asked for, namely, \$150, be inserted in the appropriation bill for the purpose named in said resolution, inasmuch as we find that these men lost their lives while performing their duty, and it is only right that a suitable headstone be placed over their graves by the Government for whom they sacrificed their lives."

PAUL R. ISENBERG,
S. W. KAAL.
The House arrived at the items under the head of "Fire Department" when it was found there was no quorum. There being no quorum, the House adjourned until 9 a. m. Wednesday, May 25th.

The Kahului Wharf.
Attorney General Smith, who is back from Maui, says that work has been stopped on the Hawaiian Commercial Company Kahului wharf, excepting to strengthen the structure already up. In fact operations ceased before the issuance of an injunction on petition of the Government. Mr. Smith says the wharf so far as built looks well and gives fair promise of being an excellent public improvement. It seems the real question at issue is concerning the dimensions of the structure. Those in charge of building have not the authority to speak for the Hawaiian Commercial and until definite plans are shown the Government will not permit work to proceed. There is really no opposition to actual wharf construction if there be the customary formal understanding with the Public Works department.

Culprit Found.
The young man who tried to falsely alarm the town as to a troop ship on Saturday evening, has been found out. He had occasion to use the telephone early yesterday morning and his voice was recognized by the operator, Henry Crane, who made the connection from the Japanese store on Beretania Saturday evening to the Hawaiian Electric Works. Manager Cassidy called on the young man and suggested a drive to the Japanese shop. The culprit became frightened and confessed. He will not be prosecuted, but was given a sharp lecture by Mr. Cassidy and by Marshal Brown.

A Young American.
The bright and shining light in the family of a Senator whose home is on Beretania street is a boy who has just left kilts. The little chap is fairly steeped in Americanism. Attacking a bunch of grapes a couple of mornings ago the youngster remarked: "This is a good way to gobble up Spaniards." On Sunday the boy was shown a lot of pictures of American army and navy officers. Then he was asked who, in his opinion, was Uncle Sam's best man. In one word he declared that the Supreme Being was "Uncle Sam's best man."

THE LAST CHANCE.
Only one more day! This will be the last day of the sacrifice sale of Table Linen, Napkins, Sheetings and Pillow Cases, and to make it still more attractive, Towels will be added to the list of Bargains.
